C. Research Support

Ongoing Support

1 R01 HL088198-01 Blair (PI)

08/20/2008 – 07/31/2011

NIH/NHLBI

The Association Between Providers' Ethnic/Racial Biases and Hypertension Control

The major goals of this project are to measure healthcare providers' implicit and explicit biases toward African Americans and Latinos, and examine the degree to which those biases are associated with ethnic/racial disparities in hypertensive patients' perceptions, disease management and health outcomes.

Role: Co-Investigator

1 R21 HS017627-01 Bayliss (PI)

07/01/2008 – 06/30/2010

AHRQ

The Effect of Incident Comorbidities on Guideline-concordant Chronic Disease Care

This project will propose specific adaptations to existing diabetes care guidelines that will be amenable to further investigation. It will also provide a description of patients at risk for poor health outcomes who may benefit from such adapted guidelines.

Role: Co-Investigator

1 U01 HL079208 Bull (PI)

09/30/2004–09/29/2009

National Heart, Lung and Blood Institute

Latinos Using Cardio Health Actions to Reduce Risk

Studies to reduce disparities in primary prevention of cardiovascular disease among Hispanics

Role: PI 2004-2008, co-PI 2008-present

Completed Support

1 U54 RR025217-01 Sokol

07/01/2008 – 06/30/2009

NIH

Colorado Clinical Translational Sciences Institute

The program incorporates a broad reaching intra and inter-institutional comprehensive program to enhance translational clinical research, training of clinical translational scientists, and collaboration with the communities of the state of Colorado and the surrounding region. Resources are included to provide pilot research awards to translational scientists, a program to develop novel new methodologies to support translational scientists' research, a comprehensive biostatistical center, a network of translational technology cores, a translational informatics core, a regulatory knowledge and support core, and a comprehensive evaluation and tracking program to monitor the effectiveness of Institute's efforts.

Role: Co-Investigator

3 U48 DP000054-02S1 Kempe (PI)

09/30/2004 – 09/29/2008

Centers for Disease Control and Prevention

Vaccine Policy Collaborative Initiative

The goal of this study is to rapidly design, conduct, and analyze qualitative and quantitative surveys of providers and public health officials to respond to issues relevant to national immunization delivery policy.

Role: Co-Investigator

1 P20 RR023500-01 Geraci (PI)

09/01/2006-08/31/2007

Principal Investigator/Program Director (Last, First, Middle):

"The Colorado CTSA Planning Grant"

This project represents the planning proposal for the University of Colorado's CTSA Roadmap initiative and involves a collaborative planning phase of 82 investigators.

2T32 PE10006 Kempe (PI) 07/01/2003–06/30/2008
Health Resources and Services Administration
Institutional NRSA for Research Training in Primary Medical Care
Program for full-time training of primary care research fellows.

290-05-0010 Steiner (PI) 09/14/2005–09/13/2007
Agency for Healthcare Research and Quality
Master Contract for Developing Evidence to Inform Decisions about Effectiveness: the DEcIDE Network.
Task orders to assess comparative pharmaceutical effectiveness in support of Medicare Modernization Act of 2003.

290-05-37-1 Steiner (PI) 09/10/2005–02/16/2007
Agency for Healthcare Research and Quality
Medical management of congestive heart failure and the effectiveness of isosorbide dinitrate and hydralazine.
(Task order #1)

1 D12 HP 00054 deGruy (PI) 09/01/2000–08/31/2006
HRSA/ Academic Administrative Units In Primary Care
Expansion of a Collaborative Primary Care Research Unit
Development of an integrated primary care research unit at the University of Colorado.

U18 HS11913 Khuri (PI) 09/30/2001–08/31/2006
American College of Surgeons/Agency for Healthcare Research and Quality
Developing organizational measures for understanding surgical team performance and risk-adjusted outcomes

Multicenter observational study to determine if application of the methodology of the VA National Surgical Quality Improvement Program to non-VA medical centers can result in a reduction of post-operative mortality and morbidity.

1 R21 CA101716-01 Eckhardt (PI) 08/21/2003–07/31/2006
National Cancer Institute
Overcoming advanced age as a barrier to accrual on early phase clinical trials of novel agents
Survey and randomized trial of an intervention to improve accrual of older patients into Phase 2 chemotherapy trials

Risendal (PI) 05/01/2004–04/30/2006
Susan G. Komen Breast Cancer Foundation
Re-entry of Hispanic breast cancer survivors to the healthcare delivery system and workforce
Evaluation of workplace issues for breast cancer survivors
