

FORTRUST®

premium data center services

WHO WE ARE:

FORTRUST is the most progressive high-availability colocation services provider in North America with locations in Denver, Colorado; Phoenix, Arizona; and Edison, New Jersey.

WHAT WE DO:

A RELIABILITY RECORD SECOND TO NONE

FORTRUST provides a data center solution that spans the broad spectrum from traditional raised floor to accommodate your lower density equipment to advanced data modules capable of handling the most intense high density compute requirements, all delivered with a reliability record second to none.

WHY FORTRUST:

- ✓ Continuous critical systems uptime for over 14 years and counting
- ✓ Tier III Constructed Facility Certification from the Uptime Institute
- ✓ Tier III Gold Certification of Operational Sustainability from the Uptime Institute assessing:
 - Management and Operations
 - Building Characteristics of a purpose built Data Center
 - Site Location and Risk Mitigation
- ✓ 100% customer service satisfaction rating year over year
